# 3<sup>rd</sup> May 2021 – National Nurses Day

**Moral and Social**– National Nurses Day is observed annually on May 6. On this day, we raise awareness of all nurse contributions and commitments and acknowledge the vital role nurses play in society.

The pandemic has tested all members of our NHS. Many nurses have had to leave their speciality to work in intensive care and look after those people who have passed. They have put their own lives at risk everyday to ensure we are kept safe.

**Therefore it is important to show our nurses that we appreciate them. What things could we do to show this?**

Modern nursing has come a long way since the 1800's. Nurses now specialise in different areas and skills. But they all have one thing in common – they care. Nurses are the people who first welcome us into the world and are often the people who help us pass on comfortably. They sacrifice time, family and their own health to ensure we are ok.
