by 14th May 2021. The best design for each will win a Do It Yourself Diary!

What is COVAX? You may have heard in the news how well the vaccination against COVID programme is progressing in the UK but COVID is a world wide pandemic – so how is the vaccination programmes progressing in other countries?? There is apparently a major difference between how many people are being vaccinated in different countries with developed countries buying more vaccines than they need and under developed countries not being able to access them hence COVAX was created to make distribution of vaccines fairer. What is your opinion on this?

KEY VOCABULARY

VACCINE / VACCINATION
= something that protects a
person from diseases

PROPORTION
= a part or share of
something bigger

DISTRIBUTE
= to give
something out

NEWS CYCLE

WHAT'S HAPPENED SO FAR?

What's happening in the global vaccination race?

The race between infection and injection is on. Several vaccines have been developed that are protecting people from covid-19. Now the challenge is to make enough vaccines and, importantly, to work out how to distribute them fairly.

When the first three vaccines were approved, the majority of doses had already been snapped up by rich countries - and some ordered many more than they needed.

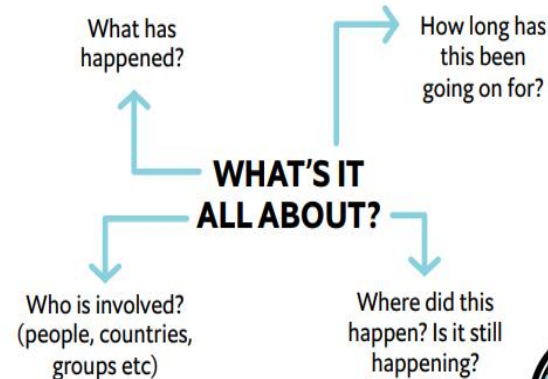

By January 2021, America had ordered enough doses for double its population and the UK had ordered enough to vaccinate its people three times over. In Canada, where the death rate has been lower than in many other countries, the government ordered five times the doses of vaccine needed.

For the pandemic to end sooner rather than later, a big proportion of the world's population needs to be vaccinated. This means every country needs access to vaccines and that countries need to work together instead of competing.

Last year, a global scheme called COVAX was created to help share vaccines between countries more fairly. Over 190 countries signed up - including many that would otherwise struggle to set up a supply. COVAX promised each country involved enough doses to vaccinate 20% of its people. For this to work, richer countries are helping to buy vaccines for poorer ones. So far, COVAX has shipped over 38 million vaccines to 104 different countries.

But whilst some countries have a good supply of vaccines and their roll-out is up and running, others have a long way to go.

NEWS SCALE

How fair is the way vaccines are being shared? Mark your opinion on the scale below with an X. What about someone who's had the vaccination? Where would they put their X? What about someone helping with the COVAX scheme?

26th April 2021 – International Dance Day

Cultural and Spiritual - To explore the culture of dance and to inspire others to get involved in dance as a form of exercise and expressing emotion.

What is International Dance Day? In 1982 the Dance Committee of ITI founded International Dance Day to be celebrated every year on the 29th April, the birthday of Jean-Georges Noverre (1727-1810), creator of modern ballet. The intention of the International Dance Day Message is to celebrate dance, revel in the universality of this art form, cross all political, cultural and ethnic barriers, and bring people together with a common language - dance. Every year a message from an outstanding choreographer or dancer is circulated throughout the world. The author of the message is selected by the International Dance Committee of ITI and the Executive Council of ITI. The message is translated into numerous languages and circulated globally.

The goals of International Dance Day are

- To promote dance in all its forms across the world.
- To make people aware of the value of dance in all its forms.
- To enable the dance community to promote their work on a broad scale, so that governments and opinion leaders are aware of the value and importance of dance in all its forms and support it.
- To enjoy dance in all its forms for its own sake.
- To share the joy of dance with others.

Worlds most popular dances:

- Which is your favourite dance?
- How could dance benefit you?
- How could you include dance in your life to express yourself, help you relax and keep you fit?
