

# Year 7 Home Learning MUSIC Tasks

If you have access to the internet, create a 'play list' of your favourite songs. You could do this in Spotify if you have it, or on YouTube – or just cue up your favourite songs to listen to.

## Things to do while you are listening to your playlist:

- Try to count along with the beat – so **1 2 3 4, 1 2 3 4** etc. Most pop/grime music will fit to a count of **FOUR** because it usually has 4 beats in a bar.
- Try to beatbox the drum part that you can hear – try to make it accurate and match the music you are listening to!
- Sing or rap along to the track you like the most – if you have a mirror and a hairbrush you can really go for it!
- You can also look for a **KARAOKE** version of your favourite song on Youtube and use it to produce your own cover version.
